

How to Create GitHub Personal Access token to Push git repositories from local machines

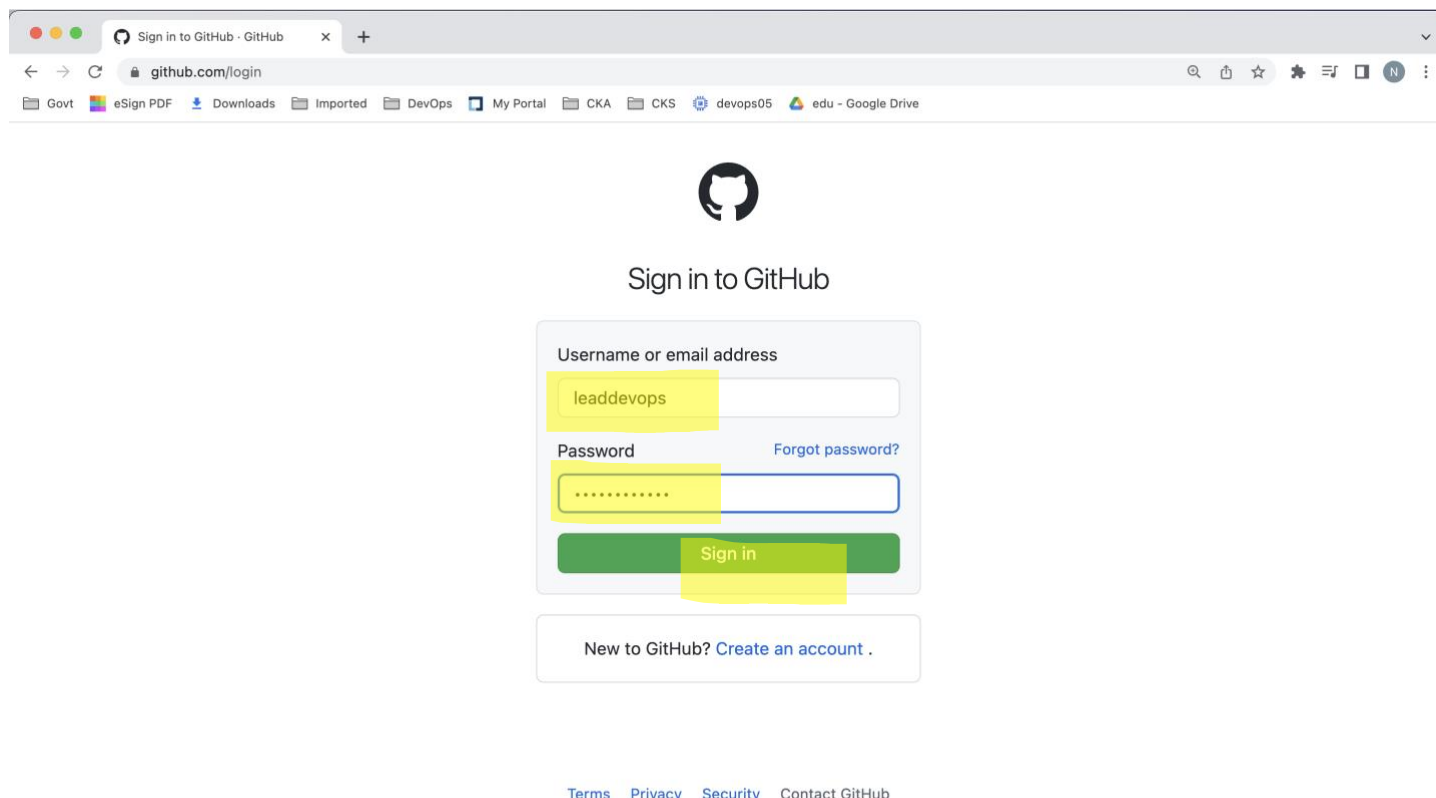

Open your browser and go to – <https://github.com/>

Click on **Sign UP**, if you do not have an account & follow the steps to create an account

Click on Sign in if you already have an account, use your credential to login

The screenshot shows the GitHub login page in a web browser. The browser's address bar displays 'github.com/login'. The page features the GitHub logo at the top center, followed by the heading 'Sign in to GitHub'. Below this, there is a login form with two input fields: 'Username or email address' containing 'leaddevops' and 'Password' with masked characters. A 'Forgot password?' link is positioned next to the password field. A green 'Sign in' button is located below the password field. At the bottom of the form, there is a link for 'New to GitHub? Create an account'. The browser's tab and address bar show various bookmarks, including 'Govt', 'eSign PDF', 'Downloads', 'Imported', 'DevOps', 'My Portal', 'CKA', 'CKS', 'devops05', and 'edu - Google Drive'.

Click On Account Menu Drop Down on top right corner & go to Settings

The screenshot shows the GitHub user profile page for 'leaddevops'. The top navigation bar includes a search bar and links for 'Pull requests', 'Issues', 'Marketplace', and 'Explore'. The user's profile is shown on the left, with a list of 'Recent Repositories' and 'Recent activity'. The main content area displays a notification 'You've been added to the lerndevops organization!' and a list of users following the user, including 'samayansasi', 'sujathalucky', and 'idataconsult'. On the right side, the account menu is open, showing options like 'Set status', 'Your profile', 'Your repositories', 'Your codespaces', 'Your organizations', 'Your projects', 'Your stars', 'Your gists', 'Upgrade', 'Feature preview', 'Help', 'Settings' (highlighted), and 'Sign out'. The browser's address bar shows 'https://github.com/settings/profile'.
